PROFESSIONAL SUMMARY

Senior Frontend Engineer with **6+ years** of experience delivering scalable enterprise software, ERP platforms, workflow systems, dashboards, PWAs, and customer-facing products. Deep expertise in **React, Next.js, TypeScript**, frontend architecture, design systems, performance, testing, and technical leadership. Hands-on backend development with **Node.js, NestJS, Express.js, Python, SQL, MongoDB**, REST APIs, real-time services, and production integrations.

TECHNICAL SKILLS

Frontend Core: JavaScript (ES6+), TypeScript, React, Next.js, React Native, Vue.js, HTML5, CSS3, Sass, Tailwind CSS
UI / Architecture: Ant Design, MUI, ShadCN UI, Headless UI, Component-Driven Architecture, Design Systems, SSR, SSG, ISR, PWA
State / Data / Forms: Redux Toolkit, Zustand, Context API, TanStack Query, SWR, Axios, Orval, React Hook Form, Zod, Yup, Formik
Backend / Python / APIs: Python, Node.js, NestJS, Express.js, REST APIs, WebSockets, SignalR, Socket.io, JWT, OAuth2
Databases / Testing: SQL, MongoDB, Prisma, TypeORM, Jest, React Testing Library, Storybook, Postman, Swagger
Tooling / Visualization: Git, GitLab, Azure, Vite, Webpack, ESLint, Prettier, ApexCharts, Recharts, React Flow, GoJS, Mapbox, React Leaflet, i18next, IndexedDB, Capacitor.js

PROFESSIONAL EXPERIENCE

BehinehSazan | **Frontend Lead** — **Jan 2026 - Present**

- Lead frontend development for a large-scale **enterprise ERP** using **React, TypeScript, Zustand, TanStack Query, and Ant Design**, supporting complex financial and operational workflows.
- Design reusable component architecture and a type-safe data layer with **Orval, Axios, SWR, Zod**; build modules for Accounting, Billing, Sales Invoicing, Inventory, Treasury, Receivables, Office Automation, Quotations, and Document Management.
- Own **frontend code reviews**, **PR quality standards**, mentoring, and **architecture decisions**; implement real-time features with **SignalR** and improve performance through **code splitting, lazy loading, and bundle optimization**.
- Build data-heavy dashboards with **ApexCharts**, support multilingual product requirements with **i18next**, and maintain reliable delivery workflows using **Vite, Git, Azure, ESLint, Prettier**.
- Collaborate with **product managers, backend engineers, and UI/UX designers** to analyze requirements, define technical solutions, and make implementation decisions for complex ERP features.

VistaApp | **Frontend Team Lead / Full-Stack Developer** — **Feb 2023 - Jan 2026**

- Led a 5-person frontend team and owned **technical planning, architecture decisions, PR/code reviews, mentoring**, engineering standards, and technical discussions across multiple products.
- Built scalable applications with **React, Next.js, TypeScript, Redux Toolkit, Zustand, TanStack Query** across enterprise dashboards, booking platforms, super apps, CMS/admin panels, mapping systems, and offline-first PWAs.
- Contributed as a backend developer using **Node.js, NestJS, Express.js, SQL, MongoDB** and REST/real-time services; integrated backend APIs with complex frontend business workflows.
- Delivered reusable UI systems, complex forms, location-based features, and analytics using **React Hook Form, Zod, Tailwind CSS, Mapbox, React Leaflet, ApexCharts, Recharts**.
- Improved reliability and performance with **Jest, React Testing Library, code splitting, lazy loading, rendering/bundle optimization** and cross-functional collaboration with product, design, backend, and clients.
- Developed **PWA and offline-first** experiences with **IndexedDB and Capacitor.js**, including local persistence and synchronization strategies for mobile-oriented products.
- Led technical meetings with **backend engineers, designers, product stakeholders, and clients**, translating business requirements into practical architecture and implementation plans.

Maroon Moshaver Arjan | **Frontend Developer (Part-time)** — **Mar 2025 - Nov 2025**

- Designed an enterprise workflow automation platform using **React, TypeScript, GoJS, React Flow, MUI** with reusable nodes, dynamic ports, validation, drag-and-drop, grouping, undo/redo, keyboard shortcuts, context menus, zoom/pan, and JSON import/export.
- Built reusable interfaces and data visualizations with **React Hook Form, Zod, Redux Toolkit, Storybook, ApexCharts, Recharts, Framer Motion** and integrated workflow definitions with backend execution APIs.
- Created advanced graph-editing interactions for enterprise workflows, including **copy/paste, grouping, validation rules, reusable diagram utilities** and scalable workflow serialization/deserialization.

Freelance | **Frontend Developer** — **Jan 2022 - Feb 2023**

- Designed responsive admin panels and internal organization interfaces, creating reusable UI patterns and integrating frontend applications with backend services.
- Worked across reusable CRUD, role-based administration, CMS, e-commerce, and analytics-oriented interfaces for internal business applications.

EDUCATION

M.Sc. Artificial Intelligence
Islamic Azad University, South Tehran Branch | 2024 - Present

B.Sc. Electrical Engineering
Islamic Azad University, Science and Research Branch | 2019 - 2023
